## Who we are: Our History

CISAL: specialist in bathroom and kitchen taps, since 1952

CISAL was born in 1952 as a manufacturer specialized in the production of single-lever and traditional taps for bathrooms and kitchens that perfectly combine aesthetics, functionality, reliability and high performance.

In its production plants, the most advanced industrial technologies are used to design unique pieces that stand out for their design and engineering.

The collaboration with international architects and designers of the recognition of Karim Rashid, Gianpero Peia, Raffaella Vecchi, Nevio Tellatin or Marco Poletti has allowed Cisal products to be placed at the forefront of bathroom design worldwide.

### EcoStop

EcoStop feature limits water flow to approximately 50% of maximum output with one point of resistance on setting. Push slightly past the middle stop only when full water output is required. This will save water up to 50%.

### EnergySave

Thanks to the EnergySave device, only cold water will be drawn if the lever is operated in the central position, so that the water heater will not be engaged and no hot water wasted, leading to considerable savings in energy and costs. The temperature can be adjusted by rotating the lever to the left, until the desired temperature is reached.
